2021 Tax Pocket Guide

*“Next to being shot at and missed,
nothing is really quite as satisfying as an income tax refund.”*

~ F.J. Raymond

Dear Clients and Friends,

Future tax planning is best achieved when you understand, in advance, the rules, regulations, and tax impact of every financial strategy and move. This is where we can help. Navigating through the myriad of IRS requirements for deductions, exemptions, and applicable tax rates takes experience and expertise. We have that.

Please have a look at our firm’s 2021 Tax Pocket Guide. Many of the most common tax rates for individuals and businesses are provided in a side-by-side comparison between what you may have paid in 2020 and what you might potentially owe in 2021.

The information in our Tax Pocket Guide is intended as an initial tax planning tool. It will afford you a simple roadmap that will provide valuable insight into many of your financial considerations, obligations, and financial management. Knowing that early tax planning can result in more favorable tax outcomes, please contact us whenever you have a pressing question related to your financial future.

In addition, new tax legislation is frequently passed and we want to make certain that we share as much of it with you as possible.

Here’s to a successful 2021!

Sincerely,
